Data Scientist

Data Scientist & CS specializing in Tabular Data, Statistical Modeling, and **End-to-End ML Solutions**. Expert in building production-ready pipelines (SQL/Python/Azure) and leveraging GenAI/LLMs to solve complex strategic challenges. Software Engineer (B.Sc. CS) highly **proficient in Python**, preventing overfitting, and optimizing architectures for real-world application.

CONTACT

Phone: +972-58-6588024
Email: dycoren18@gmail.com

SKILLS

Python
Data Analysis & Statistical
Modeling Machine Learning
(XGBoost, Scikit-Learn)
LLM Workflows & GenAI
NLP Integrations
Pandas & NumPy
SQL & PostgreSQL
RESTful APIs (FastAPI)
Git & GitHub
Docker & Linux

EDUCATION

B.Sc. in Computer Science |
Hadassah Academic College,
Jerusalem
2022 – 2026

LANGUAGES

Hebrew – Native
English – Advanced

WORK EXPERIENCE

PROJECTS

AIAC - AI Assistant Coach (Python) | 2025-2026 | [Demo](#)

- **Problem & Solution:** Designed an end-to-end real-time decision-support system to eliminate coaching cognitive bias and in-game decision paralysis during high-pressure tactical scenarios.
- **Architecture & Data:** Built a 3-layer ML pipeline using vectorized Python and XGBoost, ingesting time-series telemetry data across 4,900+ NBA games to model fatigue and real-time momentum shifts.
- **Measurable Impact:** Identified 98% of critical decision edge cases where coaches failed to call timely timeouts, delivering automated strategic alerts projected to add up to 3 team wins per season.

VOLUNTEERING

- **"TecHeal" Hackathon:** Developed rapid technology infrastructure and minimum viable software applications within an agile team environment to support individuals coping with PTSD.
